## Demand Side of Cyber Insurance in the EU

di Spataro

*The report analyses current perspectives and challenges of Operator of Essential Services (OESs) related to the acquirement of cyber insurance services.*

del 2023-03-15 su [Assicurativo.it](https://www.assicurativo.it), oggi e' il 08.05.2024

"The report analyses current perspectives and challenges of Operator of Essential Services (OESs) related to the acquirement of cyber insurance services.

"Information and statistics are presented according to the selection, acquisition and use of cyber insurance as a mitigation tool in the context of their daily business' lifecycle.

"The collection of data and opinions were elaborated in relation to the category of OESs included in the network and information security (NIS) directive (Directive (EU) 2016/1148).

"Nonetheless, results and evidences would be also applicable to essential and important entities defined in the framework of the NIS2 Directive (EU) 2022/2555.

Published February 23, 2023"
